Councillor Roberts reported that he was looking into the leak in Tower Hill, he had noticed that it was still leaking even when it had been dry which indicated that it was not water run off. He was also chasing up on the missing stop sign and the line painting on the junction of Dunny Lane/Tower Hill/Chapel Croft/The Street.

A resident of Dunny Lane complained to him about the speeding along Dunny Lane and requested more 30 mph signs and warning signage on the road.

Councillor Roberts asked the Parish Council to write to him to request the removal of the VA sign, it has not worked for many months and is an eyesore

and to request more speed restriction signage.

It was recognised that there was a problem with large vehicles parking outside the Larder restricting vision and it was agreed that something should be done about it.

Resolving the flooding of Langley Road was put forward as a suggestion for the Locality Budget. It was agreed that the Highways Working Group should take a look at the problem and come up with some suggestions on how the bank could be protected and stop collapsing.

It was proposed by the Chair to move item 259 up the running order and to discuss it at this point in the proceedings.

252/13 Clerks Report

The Clerk reported on the recent Clerks meeting that she had attended. Clerks were reminded that it is Election time again next year. The Elections are due to be held in May and the District Councils will inform us by November what the likely charge for the elections will be. It must be noted that even if all Councillors are elected unopposed the Parish will still incur fees for the elections but at a reduced rate.

The main build up throughout February has been to have the new web page up and running for the 1st of March and I am pleased to report that this has happened.

Precept

The request for the precept had been approved. The figure requested is unchanged from last year.

Website

www.chipperfieldparishcouncil.gov.uk is now a live site. At the end of each month a analytical report is sent through that tells the Council about traffic on the site, a copy of the report that was received at the end of February had been circulated.

Chipperfield Parish Council Internal and External Communication Policy

In order to serve our parishioners efficiently and effectively we must have robust lines of internal and external communication. Whilst it is important not to over communicate it is essential that all areas of responsibility are kept fully informed and that all communication is has a two way flow as outlined below.

1. The Clerk

a. Inflow:

The Parish Clerk is the effective executive of the council and must be aware of all activities that involve parishioners, local organisations and all external authorities including DBC, HCC and police. To this end all communication in the above areas must be copied to The Clerk.

b. Outflow:

In conjunction with the above councillors must be kept informed of all activities within their area of responsibility. The Clerk will therefore copy all communication to the individual member's area of responsibility e.g. a communication relating to highways must be copied to all members of the highways working group.

In addition The Clerk will copy all above communication to the Chairman.

2. The Chairman

Communications with The Chairman is the same as that of The Clerk for both inflow and outflow.

3. Working Groups

All communication within working groups is to be copied to all members of that particular group plus copied to the Clerk and the Chairman.

4. Representatives and special task groups

As for working groups.

5. Miscellaneous

If, whilst communicating in line with the above, a topic is seen to have an impact on another area of responsibility a copy is to be sent to the appropriate councillor(s) as appropriate.

6. Email Procedure.

When responding to any communication ensure that you **reply to all** not just **reply** since this will only reply to the sender and not include all other addressees.

To simplify the above members should consider setting up specific groups in their individual email systems. This way, members can be informed in accordance with the above by a single click.
